

Personnel and Resources:

★
We are a selectively manned, bilingual, special duty unit of U.S. military and civilians as well as partner nation instructors. Partner nation instructors both officers & enlisted, are a key component of our success. They hail from throughout the region: Colombia, Honduras, Argentina, Paraguay, El Salvador, Ecuador and Brazil. Our facilities offer the latest training equipment technology with interactive Smart Boards to help improve learning capabilities. Additionally, our partner nation students can learn and interact in the airfield facility transitioning from classroom environment to hands-on training laboratories to apply their knowledge on the aircraft and simulators.

Inter-American Air Forces Academy (IAAFA)

318th Training Squadron (318 TRS)

Mission:

Provide world class aviation training for the armed forces of the Americas

Vision:

Strengthen Hemispheric partnerships by promoting mutual engagement, forging a culture of excellence, and providing premier instruction-one student at a time.

Curriculum:

318 TRS instructors provide training in 21 courses. All of our courseware and instruction is in Spanish. While the majority of the courses are taught in-residence at Lackland Air Force Base, our instructors' expertise has been utilized in Mobile Training Teams (MTT), Subject Matter Expert Exchanges, and other opportunities to visit with our partners throughout the areas of responsibility of SOUTHCOM & NORTHCOM.
